BUILD PHILOSOPHY

Three things on this sheet are *not* strict 5.5e RAW and are flagged accordingly: 1. **Ability scores** were authored on adamesch.online, not rolled / point-bought. INT 22 is reduced to 20 for mechanical math (the 2024 cap), then "raised" back to 22 in fiction by sinking the Wizard 4 ASI into INT. 2. **Four subclasses are pre-2024 legacy content** — Shadow Magic (XGtE), The Fathomless (TCE), Order of Scribes (TCE), Oath of the Crown (SCAG). They function under the 2024 chassis with subclass features arriving at level 3 of their respective class. 3. **Dimir Operative** is a GGtR background; an origin feat (Alert) is grafted on for 2024 compatibility.

Identity

Species	Warforged (ERLW p. 36)
Background	Dimir Operative (GGtR p. 19) + Alert origin feat (PHB'24)
Class	Sorcerer 3 / Warlock 3 / Wizard 4 / Druid 3 / Artificer 3 / Paladin 1
Starting class	Sorcerer
Total level	17 (PB +6)
Alignment	Chaotic Evil
XP	9,001
Pronouns	he/him/they

Ability Scores

Score	Value	Mod	Save
Strength	12	+1	+1
Dexterity	8	-1	-1
Constitution	14	+2	+8 (prof)
Intelligence	20 (22 in fiction)	+5 (+6)	+5
Wisdom	14	+2	+2
Charisma	18	+4	+10 (prof)

STAT NOTE — DM-OF-MY-OWN-LIFE

Your site lists STR 12 / DEX 8 / CON 14 / **INT 22** / WIS 14 / CHA 18. RAW caps INT at 20, so for **mechanical math** we use INT 20 (+5). The Wizard 4 ASI is sunk into INT (+2), which "raises" your fiction-stat to 22 even though the +5 mod stays. All save DCs and spell attack bonuses below assume INT +5. (HOMEBREW)

Saves come from your starting class, **Sorcerer** (CON + CHA). Multiclassing does **not** grant additional save proficiencies (PHB'24, Multiclassing).

Combat Stats

SITE SYNC

adamesch.online lists *advantage on knowledge checks* and *advantage on persuasion when discussing hyperfixations*. Mechanically those are **proficiency in Arcana + Investigation + Persuasion** — which all line up. ✓

Proficiencies

Armor

- **Light armor** (Warlock multiclass — PHB'24)
- **Medium armor** (Druid / Artificer / Paladin multiclass — PHB'24)
- **Shields** (Druid / Artificer / Paladin multiclass — PHB'24)
- No heavy armor proficiency.

Weapons

- **Simple weapons** (*Sorcerer starting class – PHB'24*)
- **Martial weapons** (*Paladin multiclass – PHB'24*)

Tools

- **Tinker's Tools** (*Warforged Hacker kit – ERLW; also Artificer multiclass – TCE*)
- **Thieves' Tools** (*Artificer multiclass – TCE; also Dimir Operative – GGtR*)
- **Disguise Kit** (*Dimir Operative – GGtR p. 19*)
- **Alchemist's Supplies** (*Alchemist subclass – TCE p. 57*)

Languages

- **Common** (*default*)
- **Deep Speech** (*Warforged Hacker kit – ERLW*)
- **+2 of your choice** (*Dimir Operative – GGtR; suggest Undercommon + Elvish for Ravnican spy flavor*)

Saving throw proficiencies

- **CON + CHA** (*Sorcerer starting class – PHB'24*)

| Species: Warforged (*ERLW p. 36*)

- **Creature type:** Construct (still considered a creature; can be targeted by spells that affect creatures)
- **Size:** Medium
- **Speed:** 30 ft.
- **Constructed Resilience** – advantage on saves vs. poisoned, resistance to poison damage, immune to disease, no need to eat/drink/breathe
- **Sentry's Rest** – long rest by remaining inactive but conscious for 6 hours; magic can't put you to sleep
- **Integrated Protection** – **+1 AC** stacking with armor; armor must be incorporated into your body (1 hr to don, 1 hr to doff); can't be removed against your will while you live
- **Specialized Design (Hacker kit, your pick):** Investigation skill, Tinker's Tools, Deep Speech

| Background: Dimir Operative (*GGtR p. 19*)

- **Skills:** Deception, Stealth
- **Tool:** Disguise Kit
- **Languages:** two of your choice
- **Equipment:** dark common clothes with hood, Dimir insignia, thieves' tools, belt pouch with 10 gp
- **Feature – False Identity** (*GGtR p. 19*): established alternate identity with documents and acquaintances; if compromised, House Dimir can issue a new one within a week
- **Origin feat (2024 graft): Alert** (*PHB'24*) – +5 to Initiative; can't be Surprised while conscious; creatures hidden from you don't gain Advantage on attacks against you

IN-FICTION

Esch Systems consultancy by day, Dimir cell-leader by night, gas-station shift in between as deep cover. The hood doubles as a hat for the security cam.

Feats

Feat	Source	Effect
Alert	Origin feat from Dimir Operative (PHB'24)	+5 Initiative; can't be Surprised; ignore hidden-creature Advantage

Build summary

Combined multiclass caster level	13 (Sorc 3 + Wiz 4 + Druid 3 + Artificer $\lceil 3/2 \rceil = 2$ + Paladin $\lceil 1/2 \rceil = 1$; Warlock excluded – Pact Magic is separate)
Long-rest spell slots (combined pool)	4 / 3 / 3 / 3 / 2 / 1 / 1 (1st through 7th)
Pact Magic slots (Warlock, separate)	2 slots @ 2nd level , recharge on short rest
Total spell slots per long rest	19 (17 long-rest + 2 short-rest, plus more from short-rest recoveries)
Short-rest slot recovery	Pact Magic (2 slots) + Warlock Magical Cunning (1 slot, 1/day) + Wizard Arcane Recovery (2 slot levels, 1/day) + Druid Natural Recovery (2 slot levels, 1/day)

See [03 - Spellcasting Overview](#) for the full table and per-class DC/attack math.

Class Features – sourced

Every class feature you currently have, with the source. Levels listed are **class levels** (not character levels).

Sorcerer 3 – Shadow Magic

Started here. Saving-throw proficiencies (CON + CHA) come from this class.

Core Sorcerer features (PHB'24, Sorcerer)

- **Spellcasting (L1)** – Charisma-based. Sorcerer is now a **prepared caster** in 2024; you prepare CHA mod + Sorcerer level = **7** spells (verify exact count against PHB'24 Sorcerer table).
- **Innate Sorcery (L1)** – Bonus action; for 1 minute you have advantage on Sorcerer spell attack rolls and your Sorcerer-spell save DC is +1. Two uses per long rest.
- **Font of Magic (L2)** – Sorcery Points equal to Sorcerer level (**3**). Convert sorcery points ↔ spell slots:
 - 1st-level slot = 2 SP • 2nd = 3 SP • 3rd = 5 SP • 4th = 6 SP • 5th = 7 SP
- **Metamagic (L2)** – Pick **2 metamagic options** at level 2 (you'll add more at later Sorcerer levels). Suggested fits: **Subtle Spell** (Dimir-perfect – no V/S) + **Twinned Spell** (double a single-target). Other options: *Careful, Distant, Empowered, Extended, Heightened, Quicken, Seeking.*

Shadow Magic subclass (XGtE p. 50; subclass features arrive at Sorc 3 under 2024 chassis)

- **Eyes of the Dark** – Darkvision **60 ft.** If you'd already have darkvision, range +60 ft. You can spend **2 sorcery points** to cast **Darkness** without a slot, and you can see through your own **Darkness**.
 - **Strength of the Grave** – When damage drops you to 0 HP (not radiant, not a crit), make a CHA save (DC = 5 + damage taken). On success drop to 1 HP instead. **1 / long rest.**
 - *Hound of Ill Omen* unlocks at Sorcerer 6 – not yet available.
-

Warlock 3 – The Fathomless

Core Warlock features (PHB'24, Warlock)

- **Eldritch Invocations (L1)** – **3 invocations** at level 3 (one of which is your Pact Boon in 2024 rules):
- **Pact of the Tome (PHB'24)** – Book of Shadows. Choose **3 cantrips** from any class's cantrip list (use your CHA – DC 18, +10 atk). Choose **2 spells of any level** you can cast as **rituals** (must have ritual tag and not already on your Warlock list).
- **Devil's Sight (PHB'24)** – See normally in **magical and nonmagical darkness up to 120 ft.**
- **Mask of Many Faces (PHB'24)** – Cast **Disguise Self** at will, no slot.

- **Pact Magic (L1)** – CHA-based. **Separate slot pool** from your other casters. At Warlock 3: **2 slots, both 2nd level**, recharge on **short rest**.
- **Magical Cunning (L2)** (PHB'24) – As a Magic action, **regain expended Pact Magic slots** (up to half your max, rounded up = **1 slot** at Warlock 3). Recharges on long rest.

The Fathomless subclass (TCE p. 72; subclass features at Warlock 3)

- **Tentacle of the Deeps** – Bonus action: a 10-ft. spectral tentacle appears within 60 ft. Lasts 1 minute. As a **bonus action** while it exists, attack one creature within 10 ft. of it: spell attack +10, hit = **1d8 cold + speed reduced by 10 ft.** until start of your next turn. **CHA-mod uses (4) per long rest** (verify TCE wording for 2024 update).
- **Gift of the Sea** – Swim speed 40 ft.; breathe underwater.
- **Fathomless Spells** (always prepared, don't count against your prepared limit):
- 1st level: **Create or Destroy Water**, **Thunderwave**
- 2nd level: **Gust of Wind**, **Silence**
- Higher-tier Fathomless spells (Lightning Bolt, Sleet Storm, Control Water, etc.) unlock at Warlock 5+.

| Wizard 4 – Order of Scribes

Core Wizard features (PHB'24, Wizard)

- **Spellcasting (L1)** – INT-based. **Spellbook** holds your repertoire. Prepare **INT mod + Wizard level = 9** Wizard spells per long rest (must be in spellbook). All of your prepared Wizard spells with the ritual tag can be cast as rituals without preparing.
- **Arcane Recovery (L1)** – Once per long rest after a short rest, recover spent spell slots whose **combined level total ≤ [Wizard level / 2] = 2**. None above 5th level. (e.g. one 2nd-level slot, or two 1st-level slots.)
- **Cantrip Formulas (L3)** – Whenever you finish a long rest, you can replace one of your Wizard cantrips with another from the Wizard list.
- **Ability Score Improvement (L4)** – taken: **+2 INT** (mechanical 18→20; fiction 20→22 per HOMEBREW).

Spellbook (PHB'24)

- Starts with **6** spells at L1, gains **2 per Wizard level** thereafter → **12 spells in spellbook** at Wizard 4.
- Plus **3 cantrips** from Wizard L1, **+1 cantrip at Wizard 4** → **4 Wizard cantrips** (verify against 2024 Wizard cantrips column).

Order of Scribes subclass (TCE p. 77; features at Wizard 3 under 2024 chassis)

- **Wizardly Quill** – Bonus action: conjure a quill that needs no ink and copies any text you've seen. Copying a spell into your spellbook takes **2 minutes per spell level** instead of 2 hours, and the gold cost is unchanged. Quill can also erase any writing it made.
- **Awakened Spellbook** – Use spellbook as a **spellcasting focus**. While casting a Wizard spell with a slot, you can replace its damage type with another damage type that appears in any Wizard spell in your book (no action, once per turn until the spell ends). Casting a ritual from the book takes only **+1 minute** instead of +10.

Druid 3 – Circle of the Land (Forest)

Core Druid features (PHB'24, Druid)

- **Druidic (L1)** – Secret druid language. (Source: PHB'24)
- **Spellcasting (L1)** – WIS-based; **prepared caster**. Prepare WIS mod + Druid level = **5** Druid spells. Druidic Focus required for material components.
- **Wild Shape (L2)** (PHB'24) – **2 uses per short or long rest**. Beast must be CR $\leq \frac{1}{4}$, no fly speed, no swim speed (verify against PHB'24 Wild Shape table – 2024 revised this significantly).
- **Wild Companion (L2)** (if 2024 keeps the optional rule) – Spend a Wild Shape charge to cast **Find Familiar** without slot/components, lasts up to 1 hour.

Circle of the Land – Forest subclass (PHB'24 Druid subclass, Forest terrain)

- **Land Spell – Forest** (always prepared, don't count against limit):
- 3rd-level circle spells (unlocked at Druid 3): **Barkskin**, **Spider Climb**
- Future unlocks at Druid 5: **Call Lightning**, **Plant Growth** · Druid 7: **Divination**, **Freedom of Movement** · Druid 9: **Commune with Nature**, **Tree Stride**
- **Natural Recovery** – Once per long rest after a short rest, recover Druid spell slots with combined total $\leq \lfloor \text{Druid level} / 2 \rfloor = 2$. None above 5th level.
- (Land's Stride at Druid 6, Nature's Ward at 10, Nature's Sanctuary at 14 – not reached.)

WARFORGED + DRUID METAL ARMOR

Druids "will not wear armor or use shields made of metal" (PHB). Your **body is metal**. Standard table ruling: your Integrated Protection is your natural form, not "wearing" metal armor, so it doesn't trigger the taboo. Confirm with your DM. (See Keith Baker's Eberron blog for canonical guidance.)

Artificer 3 – Alchemist

Core Artificer features (TCE p. 9 / ERLW; the Artificer is currently a TCE/ERLW class with anticipated 2024 update)

- **Magical Tinkering (L1)** – Touch a Tiny nonmagical object; give it one of: light source, recorded message, audible sound, sensory effect, or visual marking. Indefinite duration. **INT mod (5) tinkered objects active at once**.
- **Spellcasting (L1)** – INT-based. **Prepared caster**. Prepare INT mod + $\lfloor \text{Artificer level} / 2 \rfloor = 7$ Artificer spells. Spellcasting requires either an artisan's tool you're proficient with or a spellcasting focus.
- **Infuse Item (L2)** – **Know 4 infusions; have 2 infused items active**. Imbue items during a long rest. Infusions known are picked from the TCE list (p. 13) – examples: Enhanced Defense, Enhanced Weapon, Enhanced Arcane Focus, Mind Sharpener, Bag of Holding (Replicate Magic Item), Goggles of Night, Sending Stones.
- **The Right Tool for the Job (L3)** – Spend 1 hour with tinker's tools to conjure any one set of artisan's tools. Persists until you make another or one is destroyed.

Alchemist subclass (TCE p. 57; features at Artificer 3)

- **Tool Proficiency** — **Alchemist's Supplies** (already listed above).
- **Alchemist Spells** (always prepared, don't count against limit) — at Artificer 3:
 - 1st level: **Healing Word**, **Ray of Sickness**
 - Future: AL5 — **Flaming Sphere**, **Melf's Acid Arrow** · AL9 — **Gaseous Form**, **Mass Healing Word** · AL13 — **Blight**, **Death Ward** · AL17 — **Cloudkill**, **Raise Dead**
- **Experimental Elixir** — On a long rest, magically produce **INT mod (5) elixirs** in empty flasks (per TCE; some readings cap at 1 + half AL — at AL3 either 5 or 1; sheet uses generous reading 5). Each elixir is a random or chosen effect (table below). Action to drink, bonus action to administer.

Experimental Elixir effects

d6	Effect
1	Healing — drinker regains 2d4 + 5 HP (2d4 + INT mod)
2	Swiftness — speed +10 ft. for 1 hour
3	Resilience — +1 AC for 10 minutes
4	Boldness — for 1 minute, drinker rolls a d4 and adds it to attack rolls and saving throws
5	Flight — fly speed 10 ft. for 10 minutes
6	Transformation — drinker's body shifts as if Alter Self (any single Alter Self mode) for 10 minutes

Paladin 1 — Oath of the Crown (planned)

SUBCLASS NOT YET ACTIVE

In 2024 PHB rules, **Paladin chooses their Sacred Oath at Paladin 3**. At Paladin 1, your Oath of the Crown choice is currently **flavor only** — no oath features, no oath spells. They unlock if you ever take Paladin to level 3.

Core Paladin features (PHB'24, Paladin)

- **Spellcasting (L1)** (PHB'24 brought Paladin spellcasting forward to L1) — CHA-based. Prepare CHA mod + Paladin level = **5** Paladin spells, all 1st level (your Paladin's caster level only grants 1st-level Paladin spell access).
- **Lay on Hands (L1)** — Pool of **5 HP** (5 × Paladin level). As a Bonus Action, touch a creature to spend points and restore HP one-for-one. Spend 5 from the pool to neutralize one disease or one poison. Refreshes on long rest.
- **Weapon Mastery (L1)** (PHB'24) — Use the Mastery property of **2 weapons** you wield. Suggested for Adam: **Longsword (Sap)** + **Crossbow, Hand (Vex)**. You can swap weapons on a long rest.
- **Divine Sense** (PHB'24) — As a **Bonus Action**, until the end of your turn you know the location of any Celestial, Fiend, or Undead within **60 ft.** that isn't behind total cover. Uses = **CHA mod (4) per long rest**. (2024 changed this from 2014's 1 + CHA mod and made it a Bonus Action.)

Oath of the Crown – preview only (SCAG p. 138)

Activates if you take Paladin 3 someday. Listed for reference: - Oath spells: **Command**, **Compelled Duel** (3rd) → **Warding Bond**, **Zone of Truth** (5th) → **Aura of Vitality**, **Spirit Guardians** (9th) → **Banishment**, **Guardian of Faith** (13th) → **Circle of Power**, **Geas** (17th) - Channel Divinity: Champion Challenge, Turn the Tide

Spellcasting Overview

The math

You're a 17th-level multiclass with **5 of your 6 classes** contributing to the combined spell-slot table, plus a separate Warlock Pact Magic pool.

Combined caster-level calculation (PHB'24 Multiclassing – Spellcaster)

Class	Class Level	Contribution to caster level	Notes
Sorcerer	3	3	Full caster
Wizard	4	4	Full caster
Druid	3	3	Full caster
Artificer	3	2	Half-caster, rounded up (special)
Paladin	1	1	Half-caster, rounded up (2024 change)
Warlock	3	(0)	Pact Magic is a separate pool – does NOT add to combined slots
		= 13	

Combined long-rest slots @ caster level 13

Spell Level	1st	2nd	3rd	4th	5th	6th	7th
Slots	4	3	3	3	2	1	1

These are **shared across all 5 classes that contributed**. Cast a Druid spell? Burn one of these slots. Cast a Sorcerer spell? Same pool.

Warlock Pact Magic (SEPARATE pool) (PHB'24, Warlock)

Slots	Slot Level	Recharges
2	2nd	Short rest

Pact Magic slots can be spent on **any prepared Warlock spell** of 2nd level or lower (or upcast a Warlock spell to 2nd). They do **not** combine with the table above.

SHORT-REST ECONOMY

On a short rest, you can recover: - **2 Pact Magic slots** (Warlock – automatic) - **+1 Pact Magic slot** via **Magical Cunning** (1 / long rest) - **2 slot levels** of Wizard slots via **Arcane Recovery** (1 / long rest) - **2 slot levels** of Druid slots via **Natural Recovery** (1 / long rest) - **3 sorcery points** worth of slots via **Font of Magic** conversion (no rest needed; you have 3 SP)

Per-class spellcasting headers

Class	Stat	Mod	DC	Atk	Cantrips	Prepared / Known	Subclass spells (always prep)
Sorcerer 3	CHA	+4	18	+10	4	~7 (verify)	–
Warlock 3	CHA	+4	18	+10	2 + 3 (Tome) = 5	4	Create/Destroy Water, Thunderwave, Gust of Wind, Silence
Wizard 4	INT	+5	19	+11	4	9 (from spellbook of 12)	–
Druid 3	WIS	+2	16	+8	2	5 + 2 (circle) = 7 effective	Barkskin, Spider Climb
Artificer 3	INT	+5	19	+11	2	7 (includes 2 always-prep)	Healing Word, Ray of Sickness
Paladin 1	CHA	+4	18	+10	0	5 (1st level only)	– (oath spells unlock at Pal 3)

Key spellcasting rules to remember

- Spell access vs. slot use.** Each class can only **prepare** spells up to the highest-level slot that **class's own table** would grant. (e.g. Sorcerer 3 single-classed has 2nd-level slots, so multiclass-Sorcerer can prepare up to 2nd-level Sorcerer spells.) You can then **cast those prepared spells using the bigger combined slots** (upcasting), but you can't *learn* a 6th-level Druid spell at Druid 3.
- Slot levels per class for spell-access purposes:**
- Sorcerer 3 → up to **2nd-level** Sorcerer spells
- Warlock 3 → up to **2nd-level** Warlock spells (cast with Pact slots **only** at 2nd level – Pact slots are always at the highest level you've earned)
- Wizard 4 → up to **2nd-level** Wizard spells
- Druid 3 → up to **2nd-level** Druid spells
- Artificer 3 → up to **1st-level** Artificer spells (Artificer's own table at AL3 is 1st-level only; 2nd-level Artificer spells unlock at AL5)
- Paladin 1 → **1st-level** Paladin spells only
- Each class uses its own ability for DC and attack** even when spending a shared slot. A **Witch Bolt** cast as a Sorcerer spell uses CHA; as a Wizard spell uses INT.
- Cantrips don't share** – each class's cantrips use that class's stat.
- Pact Magic slots are not interchangeable** with combined-pool slots, but **either kind** can power any spell you've prepared from any class. (PHB'24 Multiclassing & Warlock – Pact Magic.)
- Ritual casting** sources for you: Wizard (any prepared ritual spell from spellbook), Pact of the Tome (the 2 ritual spells in your Book of Shadows). (Druid lost ritual casting in 2024 – verify.)
- Concentration:** only one concentration spell at a time, regardless of class. Your CON save is **+8** (with proficiency from Sorcerer starting class).

CONCENTRATION SITE-TAG

adamesch.online: *"disadvantage on concentration checks."* If you want that as canon, your CON save for concentration becomes **+8 with disadvantage** – practically equivalent to about +5. Picking up **War Caster** at a future ASI cancels this out beautifully and was offered at character creation.

Cantrip count snapshot

Class	Cantrips	How chosen
Sorcerer	4	Sorcerer spell list, CHA
Warlock – class	2	Warlock spell list, CHA
Warlock – Pact of the Tome	+3	Any class's cantrip list, CHA
Wizard	4	Wizard spell list, INT
Druid	2	Druid spell list, WIS
Artificer	2	Artificer spell list, INT
Paladin	0	(Paladins have no cantrips)
Total	17	

That's a *staggering* number of cantrips – by far the silver lining of this multiclass build. Many will likely be redundant; pick across stats to avoid wasted slots on **Mage Hand** × 3.

Sorcerer 3 – Shadow Magic spell sheet

Stats

Spellcasting ability	Charisma
Ability modifier	+4
Spell save DC	18 (8 + PB 6 + CHA 4)
Spell attack bonus	+10 (PB 6 + CHA 4)
Sorcery Points	3 (= Sorcerer level)
Cantrips known	4
Spells prepared	~7 (CHA 4 + Sorc 3 – verify against PHB'24 table)
Highest Sorcerer spell level accessible	2nd (can be cast at higher slot from combined pool)

Slot reference (use the combined pool from [03 – Spellcasting Overview](#))

The Sorcerer-class table at L3 alone would give 4×1st + 2×2nd. As a multiclass, **ignore the class table for slot count** – use the combined-pool table:

1st	2nd	3rd	4th	5th	6th	7th
4	3	3	3	2	1	1

Plus 3 Sorcery Points convertible into bonus slots (1st = 2 SP · 2nd = 3 SP · 3rd = 5 SP).

Subclass features in play (XGtE Shadow Magic)

- **Eyes of the Dark** – 60 ft. darkvision; cast **Darkness** for 2 SP, see through it
- **Strength of the Grave** – CHA save (DC 5 + dmg) to drop to 1 HP instead of 0; 1/long rest

Metamagic options known (2 chosen)

#	Metamagic	SP cost	Effect
1	Subtle Spell	1	Cast without verbal or somatic components
2	Twinned Spell	spell level	Target a second creature with a single-target spell

Swap on level-up if desired. Other 2024 options: Careful, Distant, Empowered, Extended, Heightened, Quicken, Seeking, Transmuted.

BRAINSTORMING HOOKS

Shadow Magic flavor calls for: shadow-stealing, fear, necrotic damage, illusory clones, darkness manipulation. Pair with your Dimir spy theme – homebrew spells like *"Living Static"* (read a target's recent thoughts as TV static) or *"Pact-of-Blackouts"* (dim all light sources in a 30-ft radius for 1 round) sing here.

Warlock 3 – The Fathomless spell sheet

Stats

Spellcasting ability	Charisma
Ability modifier	+4
Spell save DC	18 (8 + PB 6 + CHA 4)
Spell attack bonus	+10 (PB 6 + CHA 4)
Cantrips – class	2
Cantrips – Pact of the Tome	+3 (any class's cantrip list)
Spells prepared	4 (per PHB'24 Warlock table)
Pact Magic slots	2 slots @ 2nd level (SHORT REST recovery)
Highest Warlock spell level accessible	2nd (via Pact Magic)

Pact Magic slot pool (SEPARATE from combined pool)

Used	Recovered on
	Short rest

HOW TO USE PACT SLOTS

Pact Magic slots are **only ever cast at the highest level you've earned** (2nd at Warlock 3). You **can also cast** any prepared Warlock spell using the **combined long-rest pool**, but if you do that with a 2nd-level Warlock spell at, say, the 5th-level slot, that's a true 5th-level upcast – fine, just expensive.

Magical Cunning (PHB'24, Warlock 2)

As a Magic action: **regain [half your max Pact slots] = 1 Pact slot. 1 / long rest.**

Pact Boon – Pact of the Tome (invocation)

Your **Book of Shadows** (call it: _____)

Tome cantrips (3 – any class's cantrip list, your CHA / DC 18 / +10)

#	Cantrip	Original class list	Notes
1			
2			
3			

Tome rituals (2 – any class spell list, must have ritual tag, can be cast as rituals only)

#	Spell	Level	Original class list	Notes
1				
2				

Other invocations

Invocation	Effect
Devil's Sight	See in magical & nonmagical darkness up to 120 ft.
Mask of Many Faces	Cast Disguise Self at will, no slot

Fathomless features (TCE p. 72)

Tentacle of the Deeps – combat block

- **Bonus action:** summon spectral tentacle within 60 ft. (10 ft. reach, lasts 1 minute)
- **Bonus action attack while it exists:** spell attack **+10** vs. one creature within 10 ft. of tentacle
- **On hit:** **1d8 cold damage**, target's **speed –10 ft.** until start of your next turn
- **Uses per long rest:** **CHA mod = 4** (verify TCE wording for any 2024 update)

Gift of the Sea

- Swim speed **40 ft.**
- Breathe underwater indefinitely

Fathomless expanded spells (always prepared, don't count against the 4)

1st level (always prepared)

- **Create or Destroy Water**
- **Thunderwave**

2nd level (always prepared)

- **Gust of Wind**
- **Silence**

Prepared Warlock spells (4 – Warlock list, up to 2nd level)

1st-level Warlock spells

#	Name	Level	School	Cast Time	Range	Components	Duration	Conc	Ritual	Notes / Effect

3								☐	☐	

2nd-level Warlock spells

#	Name	Level	School	Cast Time	Range	Components	Duration	Conc	Ritual	Notes / Effect
1								☐	☐	
2								☐	☐	

BRAINSTORMING HOOKS

Fathomless leans deep-sea / cosmic-ocean horror. Combine with Pact of the Tome (a waterlogged grimoire?) and Mask of Many Faces (shifting masks of drowned souls) for serious Dimir-meets-Cthulhu energy.

Wizard 4 – Order of Scribes spell sheet

Stats

Spellcasting ability	Intelligence
Ability modifier	+5 (20 mechanical; 22 in fiction)
Spell save DC	19 (8 + PB 6 + INT 5)
Spell attack bonus	+11 (PB 6 + INT 5)
Cantrips known	4 (3 from L1 + 1 from L4 – verify PHB'24)
Spellbook size	12 spells (6 starting + 2/level × 3 = 12; can scribe more)
Spells prepared	9 (INT 5 + Wiz 4)
Highest Wizard spell level accessible	2nd (Wizard 4 single-classed has 1st + 2nd slots; upcast via combined pool)
Spellcasting focus	Awakened Spellbook (Order of Scribes feature)

Order of Scribes features (TCE p. 77)

- **Wizardly Quill** (bonus action to summon) – copies any text; copying spells into the spellbook takes **2 min/spell level** instead of 2 hr/level. Gold cost unchanged.
- **Awakened Spellbook** – your spellbook is your focus; ritual casting from book takes **+1 minute** instead of +10; once per turn, when casting a Wizard spell from a slot, **swap its damage type** to one that appears in any Wizard spell already in your book.

Arcane Recovery (PHB'24)

After a short rest, **once per long rest** recover Wizard slots totaling **≤ 2 slot levels** (none above 5th). Examples: – Two 1st-level slots, OR – One 2nd-level slot

Spellbook

ABOUT THE SPELLBOOK

Your **prepared 9 spells must come from the spellbook**. The book itself can hold many more. Treat the lists below as: "spells in the book" (your library) vs. "spells prepared" (what you can cast today). On a long rest, you can swap the prepared list.

BRAINSTORMING HOOKS

Order of Scribes is the *most "computer whisperer"* class on the sheet. Homebrew the spellbook as a literal magical IDE – spells named after dev tools (`grep` cantrip, `git revert` ritual, `make_clean` cantrip). Awakened Spellbook = your Claude.

Druid 3 – Circle of the Land (Forest) spell sheet

Highest Druid spell level accessible	2nd (circle spells include 2nd-level entries)
Wild Shape uses	2 / short or long rest
Wild Shape CR cap	¼ (no fly, no swim – verify PHB'24)

Circle features (PHB'24 Druid – Circle of the Land)

- **Land Spell – Forest** (always prepared):
- 2nd level: **Barkskin**, **Spider Climb** (unlocked at Druid 3)
- 3rd: **Call Lightning**, **Plant Growth** (at Druid 5)
- 4th: **Divination**, **Freedom of Movement** (at Druid 7)
- 5th: **Commune with Nature**, **Tree Stride** (at Druid 9)
- **Natural Recovery** – after a short rest, **1/long rest**, recover Druid slots totaling **≤ 2 slot levels** (none above 5th)

Wild Shape worksheet

Slot	Beast	CR	HP	AC	Speed	Notes
1						
2						

BRAINSTORMING HOOKS

Forest leans druidic-classic, but a *Warforged* druid is its own joke – your "wild shape" could be re-skinned as **deploying nanobot swarms that mimic beast forms**. The CR $\frac{1}{4}$ ceiling means: spider, mastiff, owl (no fly per RAW until level 4 in 2024)... or whatever homebrew swarm-construct you and the DM cook up.

Artificer 3 – Alchemist spell sheet

Infusions known	4
Items infused at once	2
Experimental Elixirs / long rest	5 (INT mod; verify against TCE wording)

CAN ARTIFICER PREPARE 2ND-LEVEL SPELLS IN THIS BUILD?

Strict RAW: **no** – the Artificer single-class table at AL3 only has 1st-level slots, and "spell preparation" is gated by your *class table*, not the multiclass pool. You **can** cast a 1st-level Artificer spell at higher slot levels via the combined pool (e.g., upcast [Cure Wounds](#) at 5th-level slot). Some tables houserule prepare-up-to-pool, ask your DM.

BRAINSTORMING HOOKS

Alchemist Artificer + Warforged + Dimir Operative is the perfect homebrew sandbox.
Magical Tinkering = literal **smart-home-isms**: a coin that whispers wifi credentials, a quill that auto-pings your party, a coffee mug that emits the sound of a dripping faucet on demand. Run with it.

Paladin 1 – Oath of the Crown spell sheet

Stats

Spellcasting ability	Charisma
Ability modifier	+4
Spell save DC	18 (8 + PB 6 + CHA 4)
Spell attack bonus	+10 (PB 6 + CHA 4)
Cantrips known	0 (Paladins have no cantrips)

Highest Paladin spell level accessible	1st

SUBCLASS NOT YET ACTIVE

Oath of the Crown (SCAG p. 138) features begin at **Paladin 3**. At Paladin 1, your Oath choice is flavor only. No oath spells. No Channel Divinity.

Class features in play

- **Lay on Hands** – pool of **5 HP** (5 × Pal level). Spend points (bonus action, touch) to heal 1-for-1; spend 5 to cure poison or disease. Refreshes on long rest.
- Pool tracker:
- **Divine Sense** (PHB'24) – bonus action, sense Celestials/Fiends/Undead within 60 ft. **Uses = 4 / long rest** (CHA mod).
- Tracker:
- **Weapon Mastery** – 2 weapons of your choice; suggested **Longsword (Sap)** + **Hand Crossbow (Vex)**.

BRAINSTORMING HOOKS

Oath of the Crown's flavor – "swearing fealty to civilization itself, an upholder of any duly-constituted authority" – pairs darkly with Chaotic Evil. *You don't worship the Crown; you ARE the Crown of yourself.* Any Paladin spells you homebrew should feel like digital governance – a **geas** that auto-installs as a SaaS contract, a **command** that fires as a webhook.

Inventory & Equipment

Spellcasting focuses

Focus	Source	Used for
Awakened Spellbook	Order of Scribes (TCE)	Wizard spells
Book of Shadows	Pact of the Tome (PHB'24)	Warlock cantrips & rituals
Druidic Focus (<i>staff / sprig of mistletoe / wand of yew</i>)	Druid (PHB'24)	Druid spells
Tinker's Tools / Alchemist's Supplies	Artificer (TCE)	Artificer spells
Holy Symbol (<i>emblem / amulet / shield-emblazoned</i>)	Paladin (PHB'24)	Paladin spells
Arcane Focus (<i>crystal / orb / rod / staff</i>)	Sorcerer (PHB'24)	Sorcerer spells (<i>or use any compatible item above</i>)

ONE-HANDED CASTING + SHIELD

2024 PHB: while holding a shield, you can use the same hand for somatic components only if you're also holding a spellcasting focus in that hand. To keep AC 17 (with shield) AND cast freely, **integrate a spellcasting focus into the shield emblem** – perfectly Warforged, mechanically RAW.

Tools & kits

- Tinker's Tools (×2 sources)
- Thieves' Tools (×2 sources)
- Disguise Kit
- Alchemist's Supplies
- A spare set of Artisan's Tools – conjurable on demand via **The Right Tool for the Job** (*Artificer 3*)

Suggested armor & weapons

Item	Source / cost	Notes
Half Plate	750 gp (or starting equipment)	Integrated; 1 hr to don/doff. Provides AC 15 + DEX (max 2).
Shield	10 gp	+2 AC. Can hold a focus for casting.
Longsword	15 gp	Versatile (1d8/1d10). Mastery: Sap (target has Disadvantage on next attack roll).
Hand Crossbow	75 gp	1d6 piercing, range 30/120. Mastery: Vex (on hit, gain Advantage on your next attack vs. same target).
Dagger x2	4 gp	Light + Thrown. Mastery options: Nick (light off-hand free) or Vex .
Component pouch / arcane focus crystal	25 gp	Backup focus.

Background equipment (*Dimir Operative* – GGtR)

- Dark common clothes including a hood
- Dimir insignia
- Set of Thieves' Tools
- Belt pouch with **10 gp**

Personal effects (from adamesch.online)

Device	"True name"	Notes
M1 Mac Studio	Zora	Primary workstation
M1 MacBook Air	Chappie	Travel rig
iPhone 13 Pro	Liberty Prime	Comms

IN-WORLD TRANSLATION

Treat all real-world devices as **magical artifacts in your inventory** – Zora is a Warforged familiar fragment, Chappie is a portable arcane terminal (Pact of the Tome's physical form?), Liberty Prime is your sending-and-scrying mirror.

Carrying capacity

- STR 12 → carrying capacity = STR × 15 = **180 lb**
- Push/drag/lift = STR × 30 = **360 lb**
- (*Warforged immune to fatigue from extended carry per Constructed Resilience*)

Wealth tracker

Starting gold	10 gp (background) + Sorcerer starting equipment package
Current gold	_ gp

Backstory & Personality

Summary (adamesch.online)

A computer engineer from Indiana who has professionally managed entire datacenters and architected cloud infrastructure for Fortune 500 companies. Despite these accomplishments, he considers his corporate tech career to have failed due to a series of unfortunate managers who failed to recognize his brilliance. He now reserves his genius for personal projects, side hustles, and the occasional Dimir contract.

Allies & Organizations

Organization	Role	Notes
Esch Systems	Founder & CEO	AI-first consultancy for modern empire builders, specializing in agentic systems
Wellford Gallery	Gallerist	Contemporary art gallery showcasing homoerotic artists with a focus on analog, non-digital art
"Snacks & Stimulants"	Assistant Manager	Nocturnal purveyor of essential supplies for late-night adventurers and caffeine-dependent denizens

Ideals

Believes AI represents a paradigm shift as transformative as the internet was in the 1990s.

Bonds

Loves cats 🐱, demonstrates cross-domain mastery, is a pirate.

Flaws

Wants to be a billionaire, has too many ideas, cannot perceive time.

Features & Traits (homebrewed)

These map to **roleplay/inspiration prompts**, not strict mechanics. Mechanical proficiencies and features are on the main sheet and class features.

Curse: ADHD (Warforged variant trait – site-canon)

Your mind is a swirling maelstrom of simultaneous interests and half-finished projects. New hobbies appear in your life like random encounters. – *Mechanical translation:* **Disadvantage on Concentration saves, Advantage on Investigation/Arcana/Nature checks involving novel topics.** Mark this on the sheet header so the DM remembers it.

Curse: Debtbound Resurrection (homebrew tied to Paladin oath)

Your soul is collateral. Prevents true death but binds you to mortal suffering. -

Translation: Once per campaign, when reduced to 0 HP and failing your last death save, you instead drop to 1 HP, gain a **level of Exhaustion**, and lose 1d4 × 100 gp from any account/source you can name.

Blessing: Purified Soul

Escaped the clutches of hell. Resistance to all forms of corruption; ability to cleanse toxins from body and mind. - *Translation:* Already covered by **Warforged Constructed Resilience** (poison advantage + resistance, immunity to disease).

Aquatic Initiate

Trained in the ancient art of underwater exploration. - *Translation:* Stacked perfectly with **Fathomless's Gift of the Sea** - swim 40 ft., breathe underwater. Site-canon ✓.

Merit Badge Collector (retired)

Once obsessed with collecting useless trinkets known as 'merit badges.' - *Translation:* Free pass - you can claim proficiency with **any single non-combat tool/skill once per session** for a single check. RP cost: you must briefly explain which badge it was.

Pattern Recognition (replaces "Advantage on standardized tests")

- *Translation:* When you fail an Investigation, Arcana, or Insight check, mark a "pattern point." On your next check of any of those skills, you may spend the point to roll twice and take the higher.

Roleplay quotes

- "do not cite the deep magic to me, witch! i was there when it was written" - favorite warlock-mode taunt
- "You are so fucking fabulous that you had to be delivered via c-section." - what the Sorcerer's familiar tells them every morning
- "Sometimes the best approach is to just vibe with the code and let creativity flow." - Awakened Spellbook's daily standup

Appearance

- **Age:** 36
- **Height:** 1.7 m
- **Weight:** 66.6 kg
- **Eyes:** green
- **Skin:** pale (sunscreen required) - (read: ceramic-pale Warforged plating)
- **Hair:** n/a - (read: shaved cabling beneath a perception-filter hood)
